Interviews

Timothy M. Ashburn, MD-Dr. Ashburn has a history of substance abuse. Dr. Ashburn's medical license was revoked by the Board and that license was retired. Dr. Ashburn will be doing medical reviews only and is requesting an administrative license. The Board explained to Dr. Ashburn that granting an administrative license which is less than a full license, is reportable to the National Practitioner Databank. Dr. Ashburn said he understood the implications of such a report. Dr. Roland Gray, Medical Director of the Tennessee Medical Foundation (TMF) spoke on behalf of Dr. Ashburn and supports his request for an administrative license. Ms. Franklin made a motion to grant the administrative license contingent on a lifetime contract with the TMF and Dr. Rosen seconded the motion. The motion passed.

Morris E. Cheeks, MD-Dr. Cheeks is before the Board in an effort to reinstate his medical license. Even though Dr. Cheeks is board certified in family medicine, he has been performing administrative duties for approximately ten (10) years in another state. Dr. Rosen suggested a CPEP evaluation and Dr. Mutter suggested Dr. Cheeks complete a mini-residency instead of CPEPP. The Board recommended that Dr. Cheeks seek a mini-residency program so that they would feel that he then qualifies for a license. Dr. Cheeks withdrew his application.

Olimpo F. Fonseca, MD-Dr. Fonseca's medical license was disciplined in Virginia for inappropriate prescribing. Dr. Fonseca stated that he plans to work in emergency medicine and that his license in Virginia is currently unencumbered. Dr. Zanolli made a motion to grant Dr. Fonseca a license and Dr. Rosen seconded the motion. Dr. Baron opposed. The motion passed.

Janice Knecht, MD-Dr. Knecht retired her license in 1999 and has not been in a clinical practice in over ten (10) years. Dr. Knecht explained that she has practiced diagnostic radiology. Dr. Knecht said she plans to do chart reviews with no patient contact. Dr. Mutter explained that currently an administrative license is considered a "restricted" license and requires a report to the National Practitioner Data Bank. Dr. Mutter explained the steps which would be required for Dr. Knecht to obtain an unrestricted license. Dr. Knecht agreed to withdraw her application.

Brett A. Krummert, MD-Dr. Krummert has had several alcohol related incidents in the past. Dr. Krummert explained that it has been approximately fifteen or twenty years since the last event and he stated that he has contacted Dr. Roland Gray, Medical Director for the TMF. Dr. Krummert informed the Board that he had an assessment done by Cornerstone Recovery. Dr. Gray stated that he had suggested that an assessment would be prudent and that Cornerstone Recovery did the assessment and had no reservations regarding Dr. Krummert seeking licensure. Ms. Franklin made a motion to grant a license to Dr. Krummert and Dr. Rosen seconded the motion. The motion passed.

Jack M. McBride, Jr., MD-Dr. McBride last practiced in 1998 in Chapel Hill, North Carolina and has had no direct patient care since that time. Dr. McBride explained his

past duties and stated that he was board certified in family medicine in 2008. After further discussions, Ms. Franklin made a motion to grant a full unrestricted license and Dr. Zanolli seconded the motion. The motion passed.

Raymond C. Strickland, MD (revisited)-Dr. Strickland was invited to the board meeting in July 2010 and again in September 2010. The interview was a prerequisite to licensure because Dr. Strickland needed to provide information regarding his clinical competency since he has been out of practice for a number of years. Dr. Strickland failed to appear both times even though he was informed that the board could take action on his application in his absence. At the September meeting the Board voted to deny licensure to Dr. Strickland but did not articulate the reason for denial. Dr. Rosen made a motion to deny a license to Dr. Strickland because there has been no proof of activity of clinical practice in many years and also his plan to prescribe to family members is a violation of the practice act. Ms. Franklin seconded the motion. The motion passed.

Crystal U. Twynham, MD- Dr. Twynham has a previous history of mental health conditions. Dr. Twynham explained that she has been doing some locum tenens work in the past. Dr. Twynham plans to work in a private practice in Clarksville, Tennessee but her work load will be limited. Dr. Twynham informed the board that she plans to do bariatric surgery. Dr. Roland Gray, Medical Director with the TMF spoke on behalf of Dr. Twynham. Dr. Gray stated that he does not see a problem transferring Dr. Twynham from the Alabama physician health program where she is currently monitored to a five year contract in Tennessee with the TMF. Ms. Franklin made a motion to grant a license with a TMF contract for five (5) years and Dr. Rosen seconded the motion. Dr. Baron suggested lifetime monitoring. Ms. Franklin withdrew the first motion and made a motion to grant a license to Dr. Twynham contingent on a lifetime contract with TMF and a letter from Dr. Snyder recommending her for licensure. Dr. Lovelady seconded the motion. The motion passed.

Jason Bates, MDX- Mr. Bates was charged on May 28, 2004 for the use of an illegal substance while serving in the United States Air Force. Mr. Bates explained the circumstances surrounding the incident and informed the board that he is employed at Vanderbilt Imaging Services. After further questions, Ms. Webster made a motion to grant a license to Mr. Bates and Ms. Franklin seconded the motion. The motion passed.

Disciplinary Report

OGC Report

Mr. Himmelreich stated that the rules regarding international medical schools are still being drafted. There are changes currently being made to the seven year rule. Further adjustments are being made to the Polysomnography rules regarding the Third Pathway. The Physician Assistants rules are currently in the Attorney General's Office.

Discussion

Mr. Himmelreich gave a brief overview of appellate procedures including examples of past cases taken up on appeal to the Chancery Court. He also discussed how the Board could participate in deciding what cases might be appropriate for appeal. It was decided that OGC would contact the Board chair for authorization to proceed with an appeal and the Chair would ask the Board for ratification of the authorization at their next regularly scheduled meeting. In instances where the Chair desired full Board input, a special meeting of the Board could be called.

The Board discussed the Board of Respiratory Care's rule that establishes a standardized, uniformed mechanism to document competency of respiratory care therapists to perform polysomnography. Mr. Shiva Bozarth reviewed the rule and stated that the amendment was made to the Polysomnography Practice Act which changed 63-31-107(A) (5) that allows a respiratory therapist to practice polysomnography if they completed the so-called "third pathway." The first two pathways are national certifications which are issued by the respiratory and polysomnography organizations. Mr. Bozarth stated that the Board of Respiratory Care made a determination that for those persons who fall under the third pathway, it would require proof of completion of 100 hours in a sleep center with documentation by both the medical director of the sleep center as well as the lab director. The 100 hours should cover the following five areas:

1. Patient safety,
2. Setting up and calibration of operation of equipment
3. Monitoring, recording, analysis of physiologic data

4. Operation of emergency procedures
5. Implementation of the applicable treatment procedure.

Mr. Bozarth stated that there were comments and concerns during the rulemaking hearing and the Board of Respiratory Care decided to revisit the issue at their November 10, 2010 meeting. The Board of Respiratory Care decided to authorize a change to the total number of hours required so that it is in line with the total number of hours required for a person who undergoes one of the two national certifying exams. A CRT would require 504 hours of clinical experience and a RRT would require 252 hours and must show competency in all five areas. Mr. Bozarth stated that the change in hours would be included in the rule and he would keep the Board updated on its progress. The Board had issues regarding the training programs and whether or not there are enough clinical hours in the sleep lab.

Mr. Bozarth appeared back before the Board later in the afternoon and presented a draft of a letter to be sent to the Board of Respiratory Care outlining the Medical Board's concerns with the rule. Dr. Rosen made a motion to approve the letter and Ms. Franklin seconded the motion. The motion passed.

The Board discussed and reviewed a letter from the Wellness Development Group. Mr. Himmelreich reviewed the letter and stated that the group is asking the Board to give an opinion to recognize them as a service and approve them as a litigation consultant service. After further discussion, the Board decided to make no comment.

The Board reviewed the MD X-ray Operators' course providers for bone densitometry. Ms. Otto gave a brief overview and stated that the materials were sent to Dr. Ken Hutson, Chief Radiologist at Erlanger Hospital in Chattanooga, Tennessee. After further discussion, Dr. White made a motion to approve the course including Dr. Hutson's suggestions, and Dr. Rosen seconded the motion. The motion passed.

The Board discussed asking the Chair to include Dr. Higdon to the Development Committee. Dr. Mutter appointed Dr. Higdon to be added as member to the Committee.

The Board discussed and reviewed documents on James Nelson, Rickman Family Clinic regarding Office Based Surgery. Dr. Nelson was present and represented by Mr. Frank Scanlon. Mr. Himmelreich gave a brief review and stated that Dr. Nelson came before the Board in July and the reason for his return now is because the Office of General Counsel believes it can not defend the Board's basis for denying Dr. Nelson certification to perform office based surgery. Dr. Nelson applied for Office Based Surgery certification and the denial was based on the fact that Dr. Nelson is not board certified in a medical specialty which includes the procedures he intends to perform in the office based surgical setting. Mr. Himmelreich further stated that the law does not require a physician to have a specialty board certification. The law does require physicians who are performing surgery to have documentation of training to perform particular surgical procedures, must have knowledge of principles of general surgery and physicians who are performing surgery and at least one assistant must be currently certified in ACLS.

Mr. Himmelreich stated that Dr. Nelson is present again for the Board to reconsider his application and make a determination whether to approve or reject it. Mr. Himmelreich further stated that the decision must be grounded in the law. Mr. Frank Scanlon, attorney, addressed the Board and gave a brief overview of his client's position. The Board asked Dr. Nelson to explain the surgeries that will be performed in his office. The Board had concerns regarding some of those surgeries and wanted to know what the standard of training was across the state. Dr. Mutter's suggestion was to table the issue and to ask Healthcare Facilities to look into the credentialing process of Livingston Regional Hospital who has granted Dr. Nelson privileges to perform the plastic surgery procedures which Dr. Nelson contemplates performing in his office. Ms. Franklin made a motion to table the issue until the Board can receive enough information to make a determination. Ms. Wells seconded the motion. Dr. Lovelady opposed. The motion passed. The Board instructed staff to gather information about the level of training required to safely perform the plastic procedures Dr. Nelson said he desires to perform from around the state and pass that information on to the Board.

The Board discussed third party monitoring versus monitoring by staff. Mr. Himmelreich, spoke on behalf of the Assistant Commissioner and relayed her view that it is important for the Board to avoid identifying a specific entity that would be authorized under a board order to "monitor" a physician. Mr. Himmelreich and the Board discussed identifying in a board order those items required by a third party monitor. After further discussions, the Board suggested gathering basic monitoring criteria and reviewing it at a later date.

The Board reviewed the letter previously submitted by Michael W. Goodman, MD authorized by the Office Based Surgery Committee in September 2010. Mr. Bozarth stated the letter included questions regarding Office Based Surgery procedures. After discussing the questions presented by Dr. Goodman, the Committee determined that all procedures listed were Level II procedures and were within the law. Dr. Rosen made a motion to approve the letter and Dr. Beckford seconded the motion. The motion passed.

Mr. Himmelreich gave a brief overview of the screening panel procedures and asked the Board for feedback. The Board discussed ways of reviewing documents prior to the screening panel hearing. Dr. Arnold explained how screening panels have been conducted in the past and that a screening panel was traditionally used when the respondents were not in disagreement with the charges which enabled discipline to be set. The Board commented on past experiences with the screening panel procedures. Dr. Mutter had concerns and stated he did not want to treat screening panel procedures like a contested case hearing.

Order Modification

James Charles Mosure, MD-Dr. Mosure was not present but represented by Mr. Phillip Barber of the Nashville Bar. Mr. Shiva Bozarth represented the State. Mr. Barber spoke on behalf of Dr. Mosure. Mr. Barber asked the Board to delete the portion of the Order indicating that Dr. Mosure must continue to maintain Tennessee Medical Foundation

(TMF) advocacy for life. In 2005 Dr. Mosure applied for and received a probationary license to practice in Tennessee conditioned upon his maintaining TMF advocacy for a period of five years until July 20, 2010. The July Order of Compliance lifted the probation and added a requirement for TMF advocacy for life. Dr. Mosure has retired his Tennessee medical license. Dr. Roland Gray, medical director with TMF addressed the Board and stated that it is difficult to monitor Dr. Mosure since he now lives in Virginia and is not practicing in Tennessee.
